Evolution E-Mail Client Configuration

Evolution-EWS mail client can communicate with Exchange Web Service and correctly syncs with our mail server through MFA.

1. Install Evolution and Evolution-ews packages and launch application

2. If this is a new installation you will be prompted to enter your email information, otherwise to add a new account by going to **Edit | Preferences** and choose **Add** from the Mail Accounts menu.

2	Seconda revisione	ICT Servicedesk - INF		01/08/2023	2 di 6

3. In Identity menu window, enter your name as you would like it to appear and your primary email address name@iit.it for Email Address. Uncheck “Look up mail server details based on the entered e-mail address.”

4. In Receiving Email window, enter the following information for each field:
 - Server Type: **Exchange Web Services**
 - Username: your primary email address i.e. **name.surname@iit.it**
 - Host URL: **https://outlook.office365.com/EWS/Exchange.asmx**
5. In the same window, under Authentication:
 - Select OAuth2
 - Fill Application ID with: c6d33e34-8d0e-43e0-b9b3-e091f6d28585
 - Fill Tenant ID with: bf2f465e-1f75-4b6f-be29-bf53273bc1da
 - Leave BLANK other fields (under Advanced Settings)

NOTE

Email, Global Catalog and calendar data will take some time to sync.

Some combinations of linux distributions and Evolution versions do not allow the choice of the OAUT2 authentication mode. A known good configuration is Ubuntu 21.10 and Evolution 3.40.4-1 or Ubuntu 22.04 and Evolution 3.44.1-0

In case of problems please contact ICT service desk at ICT_ServiceDesk@iit.it
